PROFESSIONAL SUMMARY

Dedicated and adaptable IT Support Engineer with a proven track record of maximizing system uptime, resolving complex network issues, and delivering exceptional user satisfaction. Adept at managing critical IT infrastructure and driving remote team productivity with additional expertise as a Data Analyst and Virtual Assistant. I excel at streamlining administrative operations, exceeding SLA targets and bridging the gap between technical infrastructure and strategic data.

EXPERIENCE

IT SUPPORT ENGINEER — AUG 2024 – JUL 2026

Pergamon Group Limited

- Delivered comprehensive technical support to end-users experiencing hardware, software, or network issues, consistently maintaining exceptionally high customer satisfaction ratings.
- Contributed to critical network expansion initiatives, including campus-wide Wi-Fi deployments and core switch upgrades, ensuring projects met strict deployment timelines.
- Managed the help desk ticketing lifecycle, prioritizing and resolving incoming IT support requests well within established Service Level Agreements (SLAs).
- Supported remote teams by maintaining and troubleshooting remote access infrastructure to guarantee seamless, secure connectivity and uptime for communication tools.
- Authored and updated detailed documentation for network configurations, system changes, and operational incidents to ensure strict compliance with internal audit standards.
- Conducted user training and enablement sessions, empowering staff to utilize corporate hardware and software efficiently while adhering to security best practices.
- Resolved complex technical glitches remotely via phone, email, and desktop tools, emphasizing rapid, first contact resolution to minimize user downtime.
- Provisioned, configured, and maintained core ICT infrastructure, proactively troubleshooting hardware and software to preserve system availability.
- Liaised with external vendors and service providers while managing the escalation pathway for complex Tier 3 engineering issues to accelerate resolution times.

IT SUPPORT INTERN — Apr 2024 - Jul 2024

Pergamon Group Limited

- Resolved hardware and software issues promptly, significantly boosting overall team troubleshooting efficiency and minimizing user downtime.
- Supported network expansion projects, including Wi-Fi deployments, by validating that all newly installed access points met strict connectivity standards.
- Processed and prioritized help desk tickets, ensuring rapid and reliable resolution for Tier 1 IT support requests.
- Maintained meticulous network configuration documents and incident logs, keeping all department records fully compliant with internal guidelines.
- Coached internal staff on hardware operations and security protocols, successfully reducing recurring support tickets caused by user error.
- Tested and documented bugs for digital operations APIs, ensuring seamless, stable data flow between integrated systems.

EDUCATION

Data Analytics — Sep 2026 – Current

Udemy

Virtual Assistant — Sep 2024 – Nov 2024

ALX Africa

Bachelor's degree in Computer Science — Sep 2019 – Nov 2023

Chuka University

SKILLS

Technical Support

- MS Office, Help desk, Active Directory, Windows and Linux environments

Network & Infrastructure

- LAN, Server management

Data Analytics and Tools

- Excel, SQL

Programming

- Web – HTML, PHP, CSS, JavaScript, MySQL and React
- Android – Java
- Scripting – Python

Soft skills

- Customer service, Communication, Adaptability, Team player, Ability to work under pressure

ACHIEVEMENTS

Leadership

- Class representative - Computer Science (Class of 2023)
- ETIMS implementation – Pergamon Group Ltd

Training

- Ethical Hacking – Udemy (2025)
  Credential ID: UC-06a58124-61a3-4c90-9831-ad129237d988
- Data Fundamentals – IBM (2026)
